up and running

## Planned proactive maintenance ...

### **DrägerService® PreventiveCare**

Concerned about maximizing trouble free operation and reducing equipment life cycle costs? Need to comply with safety standards to minimize liability risks?

DrägerService® PreventiveCare is a proactive service solution designed to keep your medical equipment operating at peak performance and in full compliance with national and manufacturer's technical standards. Engineering-designed testing methods, up-to-date service technology and expert Dräger know-how ensure efficient and timely planned maintenance.

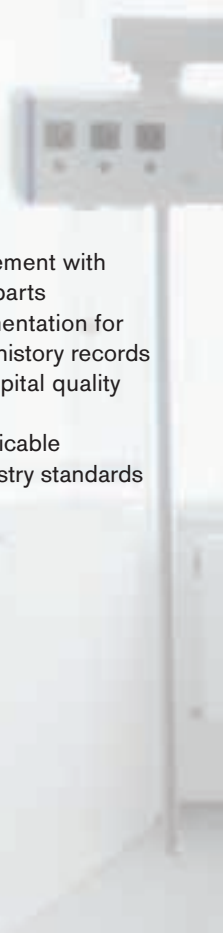

All planned maintenance is delivered professionally and punctually, in close coordination with your hospital

and staff. Regular use of original Dräger replacement parts reduces the chance of equipment downtime. Dräger preventive service meets the highest quality assurance requirements and is performed in accordance with applicable national and industry standards. And, our complete, computerized service documentation on the safety and functional status of each device saves you time and ensures the accuracy of all your service records.

So if you want a service package that delivers operational efficiencies, enhances your systems' performance and promotes equipment and patient safety, the DrägerService® PreventiveCare is just right for you.

### **Planned proactive maintenance with DrägerService® PreventiveCare:**

- Timely scheduled maintenance
- Proactive replacement with genuine Dräger parts
- Complete documentation for accurate service history records
- Achieve your hospital quality targets
- Comply with applicable national and industry standards
