

# Dräger CombiClean washing, disinfecting and impregnating machines

ST-24/08-2006

These machines are especially designed for the concerns of fire fighters.

ST-9689-2006

CombiClean 65

The microprocessor controlled programs allow to wash, disinfect and impregnate masks, service clothes (even Nomex® or Kermel®) and chemical protection suits according to the respective regulations.

A combination of suspension struts absorbs vibrations and reduces noises to a minimum.

An anchoring on the ground is not necessary.

**Advantages**

- Washing program for masks
- Special Nomex® + Kermel® programs
- Connection to cleaning agent dosing
- Drum and front made of stainless steel
- Optional water controlled drain valve or special lye pump
- Large doorway for easy handling
- Electronic temperature monitor for a safe disinfection
- Programmable with compass control®

**Options**
