

Practical seminar: Flashover.

Participants are given the chance to watch the different stages of a fire in a wood-fired training gallery. The flashover which then occurs needs to be recognized and combated.

Fire Dragon I
Wood-fired fire training gallery

TARGET GROUP

Skilled personnel of professional, voluntary and works fire brigades, mining, disaster prevention organizations and industry who are involved in fire fighting activities.

CONTENTS

- Basic principles and theoretical aspects of fire development in indoor areas
