Victoria's Alcohol Interlock Program Guide

Action	Result	Consequence
Initial Breath Test Passed: Result is less than 0.020% BAC	**PASS**	You have 3 minutes to start the car.
Initial Breath Test Failed: Result is between 0.020 – 0.049% BAC **HIGH BAC:** Result is greater than 0.050% BAC	**FAIL** **LOCKOUT of 5 minutes**	**The car cannot be started.** Handset will count down the temporary lockout period. Note: Lockout of 30 minutes if second or subsequent initial breath test is failed.
Retest Requested		You have 5 minutes to provide a breath sample.
Retest Breath Test Passed: Result is less than 0.020% BAC	**PASS**	You are able to continue your journey.
Retest Breath Test Failed: Result equal or greater than 0.020% BAC	**FAIL** **LOCKOUT of 30 minutes**	**You must turn your car ignition off.** The car horn sounds and lights flash until ignition is switched off. Handset will count down the temporary lockout period. **VIOLATION RESET after 2 Failed Retests**
Retest Refusal	**FAIL**	**You must turn your car ignition off.** The car horn sounds and lights flash until ignition is switched off. **VIOLATION RESET after 5 Retest Refusals**
Starting the car without a breath test	**NOT PERMITTED**	**VIOLATION RESET after 1 Untested Engine Start**
Power loss/disconnection of greater than 20 minutes. E.g.: disconnecting the car battery	**NOT PERMITTED**	**VIOLATION RESET after 1 Power Disconnection greater than 20 minutes**
Attempting to circumvent or tamper with device	**NOT PERMITTED**	**VIOLATION RESET after 1 Tampering or Circumvention Event**
Action resulting in **VIOLATION RESET**	**VIOLATION RESET** **SERVICE IN 7 DAYS**	The car must be taken to the Service Centre within 7 days for an early service. Failure to service the Interlock within 7 days will result in a permanent **DEVICE LOCKOUT.**
Failure to service Interlock when requested	**DEVICE LOCKOUT**	Permanent lockout until alcohol Interlock is serviced. The car must be towed or a Service Unlock Code must be requested.

REMEMBER: If you keep within the set parameters and provide breath tests when requested, you will not find yourself in any lockout situations and no violations will be recorded.

Messages Displayed on the Handset

Ready for Test **Please blow**	The Dräger Interlock is ready to accept a breath test. Provide a breath sample using correct breath pattern (BLOW-SUCK).
Retest required **Please blow**	Retest is required. Provide a breath sample into mouthpiece using correct breath pattern (BLOW-SUCK).
Test Passed 0.000 %	You have Passed the Breath Test. You can start your vehicle.
Test Failed 0.020 %	You have Failed the Breath Test. The Interlock has detected alcohol in the breath sample. The vehicle will not start.
Free start time: 02:35	The time remaining (mm:ss) when the vehicle can be started without another breath test.
Blow longer ! **Repeat Test**	The breath sample was too short. Press OK to start the breath test again, blowing longer.
Blow softer ! **Repeat Test**	The breath sample was too hard. Press OK to start the breath test again, blowing softer.
Suck after Blow **Repeat Test**	The suck back was incorrect. Press OK to start the breath test again. The suck back is short, sharp and directly after the blow.
