

There is always a
way.

**A real option.
Dräger Integrity Channel. Speak up! We care.**

If you suspect misconduct, we're here to support you. If you encounter any potential violations of Dräger's principles of business and conduct or of applicable law, please let us know. Choose the route that is best for you. Above all, Dräger wants to enable you to speak openly with your manager or Dräger contact person.

If you feel that such a conversation would appear out of line, use our web-based integrity reporting system, the Dräger Integrity Channel. This route is open to everyone, whether you are a Dräger employee, customer, sales channel partner or supplier, around the clock. No matter where you are, you can access a secure postbox and communicate with the compliance experts, either anonymously or using your name.
