Dräger FPS® 7000 Head-up Display
NFPA-Certified Accessory for SCBAs

One of the many benefits of the FPS® 7000 full-face mask is the head-up display (HUD) required by NFPA 1981. Always within the field of view the head-up display allows easy monitoring of the cylinder contents and battery status without any manual action by the wearer.

- **Photosensitive Detection**
  Based on the ambient light, the LEDs appear brighter so the wearer will notice.

- **Bright LEDs**
  These four notification lights indicate how much air remains before low-air notification.

- **Battery Status**
  These LEDs indicate the battery status of the SCBA.

- **Tool-less battery access**
  Replace the battery for the HUD easily.
Benefits

**Easy to fit and remove**

The Dräger Head-Up Display (HUD) fits easily into the FPS 7000 facemask - and can be installed or removed without the need for tools, saving time during maintenance. In an emergency, the HUD can be transferred between face masks in a matter of seconds. The HUD connects automatically with the corresponding SCBA – either a Dräger PSS 7000 or PSS 5000.

**Well protected**

The HUD is well protected in the facemask and can not be damaged by heat, shocks, humidity or chemicals.

**Long battery life**

Providing on average 360 hours of use and easily changed without the need for tools.

**Wireless operation**

The transmitter unit wirelessly transfers data to the facemask, avoiding time consuming connection of cables, reducing costs and connection errors.

**Easy to read LEDs**

Red, amber and green LEDs provide precise information about your cylinders air pressure at all times. The display automatically adapts to ambient brightness enabling clear indication of pressure information, even under poor lighting conditions.

**Additional low-air pressure warning**

In addition to the SCBA’s primary low-pressure alarm whistle, a red LED on the HUD flashes if the cylinder pressure reaches the low-pressure warning threshold. This provides the wearer with an additional warning.
Dräger FPS® 7000

The Dräger FPS® 7000 full-face mask sets the standard in safety, visibility, and comfort. Triple-sealing, the FPS 7000 comes in nine sizes and three shapes of the inner mask to ensure maximum protection by adapting to different head and face shapes.
