

# PreventiveCare

## Increase device uptime and lifetime

PreventiveCare is our proactive maintenance package that ensures the continuous reliability and performance of your Dräger devices. In addition to the regular inspection, preventive maintenance is performed and parts that are subject to wear are replaced proactively.

### ★ Benefits

- Safe and continuously reliable operation of your technical equipment due to regular preventive maintenance with original maintenance parts
- Dräger Service monitors individual device inspection and preventive maintenance intervals for reliable compliance with legal deadlines
- Timely planning and clustering of maintenance visits to reduce your administrative efforts and device downtimes
- Stable costs ensured thanks to fixed annual premiums
- Easily accessible and transparent device test history due to seamless service documentation
- Our contractual customers are priority—quick support and fast reaction time in case of emergencies

### ✓ Standard package includes

- Individual coordination of necessary service visits
- Inspection according to manufacturer specifications
- Preventive maintenance labour
- Original preventive maintenance parts
- Calibration
- Software updates
- Technical support hotline
- Documentation of performed services
- Travel expenses  
(separate fees possible for remote locations)

### ✗ Standard package does not include

- Maintenance parts to be replaced by the user
- Error analysis & repair
- Software upgrades

### + Available upgrade options

- Service during extended business hours
- Customised technical reports

### 📍 Service location

Professional and competent manufacturer service directly on-site or in one of our workshops.
