

Drying Cabinet

For drying of respiratory protective masks and respiratory protection components.

Drying cabinet as desk top model

with 2, 4 or 6 baskets for 12, 24 or 36 respiratory protective masks or parts of closed circuit breathing apparatuses. Equipped with a drip pan to collect the residual moisture. Interior and exterior housing are made of nickel chromium steel with isolated drying room.

Drying cabinet as pedestal model

with 8 or 10 baskets for 72 or 90 respiratory protective masks or parts of closed circuit breathing apparatuses. Due to the large basket spacing the masks can be put into the baskets upright.

Advantages

- Heating with high-performance radial fan, therefore short drying times
- Integrated safety thermostat
- Easy operation due to time switch
- Clean dry air due to suction filters
- Simple filling due to removable baskets
- Wired and ready to plug-in
- Feet adjustable in height and made of nickel chromium steel
- Due to the pre-adjusted drying temperature of max. 50°C, an overheating or a damage of the masks are avoided.
