

## NEONATAL DEVICE CONSUMABLES SERVICE

## Complete the picture with one source

As **Your Specialist in Critical Care**, Dräger goes beyond our thermoregulation technology to help you create a healing environment for your smallest patients. With our deep NICU experience, we can provide a comprehensive, family-centered, solution including:

- Accessories and consumables designed to work in synch with Dräger devices to enhance therapy while keeping baby's comfort in mind
- Service direct from technicians who know Dräger devices inside and out to help keep your neonatal equipment running at peak performance along with quick access to necessary service spare parts.
