

Dräger FPS® 7000 Head-up Display (HUD) Tillbehör till andningsapparater

One of the many benefits of the FPS® 7000 Facemask is the option of fitting a head up display. Always within the field of view the head up display allows easy monitoring of the cylinder contents without any manual action by the wearer.

Highlights

Easy to fit and remove

The display fits easily into the FPS 7000 facemask, and can be quickly fitted without the need for tools, saving time during maintenance. In an emergency you can transfer the HUD between facemasks in a matter of seconds.

Well Protected

The HUD is well protected in the facemask and can not be damaged by heat, shocks, humidity or chemicals.

Long battery life

Providing on average 360 hours of use and easily changed without the need for tools.

Wireless operation

The transmitter unit wirelessly transfers data to the facemask, avoiding time consuming connection of cables, reducing costs and connection errors.

Easy to read LED's

Red, amber and green LEDs provide precise information about your cylinders air pressure at all times. The display automatically adapts to ambient brightness enabling clear indication of pressure information , even under poor lighting conditions.

Additional low air pressure warning

In addition to the SCBA's primary low pressure alarm a red LED on the HUD flashes if the cylinder pressure reaches the low pressure warning threshold. This provides the wearer with an additional warning.

Connective Products

Dräger Bodyguard® 1500

- Automatic wireless PASS system alerts team if wearer is motionless or distressed
- Emits clear and distinctive signals and alarms
- Wireless data transmission from the pressure gauge to the PAS device

Dräger FPS 7000

- Comfortable full face mask with different front port options
- Combinable with helmets, communication and respiratory systems
- Available in multiple sizes for a secure fit

Dräger PSS AirBoss

- High-performance self-contained breathing apparatus for firefighting
- Offers best in class ergonomics and is one of the lightest weight breathing apparatus on the market
- Available in three standard configurations
- Compatible with Dräger FireGround

Dräger PSS® 4000

- Professional self-contained breathing apparatus for firefighting
- Offers comfort, stability, lightweight and advanced harness materials for extended wear
