Airline application
Working in shafts, containers and confined spaces

Application and introduction
Common tasks such as inspections, maintenance or repairs in confined, enclosed spaces (for example in containers, shafts, silos or ducts) involve numerous hazards, such as oxygen deficiency or the presence of toxic gases. That's why these tasks, also known as confined space work (CSW), often require the use of special protective equipment.

Application-specific requirements
Low oxygen levels and potential hazardous substances (toxic gases) require the use of self-contained respiratory protection. High contaminant levels in confined environments demand a high protection factor. Since this work is usually carried out alone in tight and often dark spaces, a well-fitting mask and close-fitting personal protective equipment are essential.

Example configuration

Article number	Designation
3352228	PAS AirPack 1
2 x 3353733	Compressed air cylinder 6.8 L/300 bar CFRP
3363584	PAS X-plore (without belt)
3363681	Decontaminable waist belt, size M (PES-bs.)
3363425	Comfort pad
3338701	Plus LDV P long hose push in
R52972	Panorama Nova P-EPDM-PC
4055092	Protective film, self-adhesive, 25 pcs

More system components for modifications or Upgrades

Options	Advantages	Also required	Replaces
Steel cylinders 6 L	Savings on costs	2 x 3355002	2 x 3353733
Quadpack AirPack 1	Longer operation time with 4 cylinders	3353471 Quadpack, 2 x 3353733	
AirPack 2	Longer operation time with 50 L cylinders	3352995 AirPack 2, 2 x 6526395 cylinders 50 L	1 x 3352228 2 x 3353733
Waist belt L	Longer belt	3363683 decontaminable waist belt, size L (PES-bs.)	3363681
Welding belt	Higher resistance, especially when sparks are flying	3363461 or 3363462, welding waist belt (leather), size M or L	3363681
FPS 7000 full-face mask	Larger field of vision, 3 mask sizes, optionally with COM 5000 or COM 7000	R56426 FPS 7000 PE-EPDM-M2-PC-EPDM	R52972
Strain relief	Better mobility	3364109 spare part set I/P tubing
