SWISSPHONE

Lone worker protection alarm include gas warning for fast and targeted assistance in case of emergency

To keep your lone workers safe, your organization can now take a proactive approach with comprehensive protection and fast emergency assistance.

The best of two companies

The lone worker safety system for the protection of lone workers from Swissphone together with Dräger gas detection devices: this complete solution contains all the important components for the protection of lone workers, especially in the fields of industry, utilities and emergency rescue.

In many industries and other sectors, it is particularly important to detect hazardous gases quickly and reliably. Modern gas detectors from Dräger provide reliable results at all times. Thanks to the wide variety of extremely robust and explosion-proof devices from Dräger and Swissphone, there is a suitable device for every application or industry.

The emergency call solution from Swissphone and the gas warning technology from Dräger make it possible to recognise an emergency situation and trigger the correct alarm independently.

In this way, lone workers are optimally protected in all situations with the guarantee that help is close at hand in an emergency.
