- (2) The share capital existing at the time of transformation of the Company into a Kommanditgesellschaft auf Aktien [*partnership limited by shares*] was furnished pursuant to Art. 190, 226, 238 et seq. UmwG [Transformation Act] by means of a change of form of the Drägerwerk Aktiengesellschaft with its principal place of business located in Lübeck and registered to the Commercial Register of the Lübeck Local Court under the registry number HRB 499.
- (3) In the event of a capital increase the participation in profits may be fixed in deviation from article 60 sect. 2 AktG [*Stock Corporation Act*].
- (4) The General Partner shall be entitled to increase the share capital by 6 May 2026 with the approval of the supervisory board by issuing once or several times new ordinary bearer shares and/or preferred shares (no-par shares) for cash and/or non-cash contributions up to EUR 12,006,400.00 (approved capital). Under the terms of the allowed limit set out in article 139, sect. 2 AktG., this authorization includes the right to issue either new ordinary bearer shares and/or preferred shares without voting rights, which in case of a distribution of profits and/or of the Company's assets are equivalent to the previously issued preferred shares without voting rights.

The shareholders shall be granted preemptive rights, to the extent that such right is not excluded for one of the following reasons. The subscription right may also be granted to the shareholders in such a way that the new shares are taken over by one or more credit institutions or companies determined by the general partner within the meaning of article 186 sect. 5 sentence 1 AktG [*Stock Corporation Act*] with the obligation to offer them to the shareholders for subscription (indirect preemptive right).

If ordinary bearer and preferred shares are issued at the same time taking into account the participation ratio existing at the time of issue between both share classes, the General Partner shall be entitled, subject to the approval of the Supervisory Board, to exclude the preemptive right of holders of one class of shares for shares of another class (exclusion of crossed preemptive rights). Also in this case, the General Partner shall be entitled to fix a wider exclusion of such preemptive rights if the following provisions are complied with.

In addition and subject to the approval of the Supervisory Board, the General Partner shall be authorized to exclude the preemptive right of the shareholders,

- i. in order to eliminate residual amounts;
- ii. if the shares are issued in return for a non-cash contribution, particularly as part of the acquisition of or merger with companies or parts of companies or the acquisition of participating interests in companies or of other property or of rights to acquire other assets including claims against the company or against the companies depending on it as laid down in art. 17 AktG;
- iii. if the shares of the Company are issued in return for a cash contribution and the issue price per share is not significantly lower than the already listed shares of essentially the same class at the time at which the shares are issued. In this case however, the

shareholders' preemptive rights may only be excluded, if the number of shares issued in this way together with the number of treasury shares which are sold under the term of this authorization with the application of an exclusion of preemptive rights under the terms of article 186 sect. 3 clause 4 AktG and the number of shares which can be created as result of the exercising of option and/or conversion rights or fulfilment of conversion obligations arising from option and/or convertible bonds and/or profit-sharing rights and which are issued during the term of this authorization with the application of an exclusion of preemptive rights under the terms of article 186 sect. 3 clause 4 AktG, do not exceed 10 percent of the share capital at the time at which this authorization comes into effect or at the time at which the shares are issued.

- iv. insofar as it is necessary to grant subscription rights to new shares to holders and/or creditors of warrants and/or convertible bonds with warrant and/or conversion rights or obligations issued by the Company or one of its majority holding companies, as would be the case after exercise of the option or conversion rights and/or after fulfilment of option exercise or conversion obligations.

The aggregate prorated amount of share capital represented by new shares for which preemptive rights are excluded by virtue of this authorization, together with the prorated amount of capital stock attributable to treasury shares or new shares from other authorized capital or to which conversion and/or option rights or obligations related under bonds which were issued or sold, subject to an exclusion of preemptive rights, must not exceed 10 percent of the capital stock. Such shares shall not be subject to this limitation to 10 percent of the share capital, which were issued under an exclusion of preemptive rights to other classes of shares. This calculation of the 10 percent limit shall be made based on the existing share capital at the time of entry into effect or the time of the exercise of this authorization, at whichever date the amount of share capital is lowest.

Subject to the approval of the Supervisory Board, the General Partner shall be entitled to determine the content of the rights embodied in the shares, details of capital increases and the conditions for the share issuance and content of the share issuance. The Supervisory Board is authorized to amend the Articles depending on utilization of the authorized capital or upon expiry of the authorization period.

- (5) The share capital is conditionally increased by up to EUR 12,006,400.00 through the issue of up to 4,690,000 new ordinary bearer shares and/or preference shares without voting rights (no-par value shares) (conditional capital 2021). The conditional capital increase serves the purpose of granting or imposing option and/or conversion rights or obligations to the holders or creditors of bonds with warrants and/or convertible bonds (together "Bonds"), which are issued or guaranteed by the Company or a group company within the meaning of article 18 AktG [*Stock Corporation Act*], in which the Company directly or indirectly holds a majority interest, on the basis of the authorisation resolved by the Annual General Meeting on 7 May 2021 under agenda item 8 until 6 May 2026. The new shares shall be issued at the option or conversion price to be determined in each case in accordance with the authorisation resolved by the Annual General Meeting on 7 May 2021 under agenda item 8 under lit. a). The conditional capital increase shall only be implemented to the extent that the holders or creditors of bonds exercise their option and/or conversion rights or holders or creditors of bonds who are obligated to exercise their option or conversion rights fulfil their option exercise or conversion obligation, or to the extent that the Company is not obligated to exercise its option or conversion rights. The new shares shall take effect from the beginning of the financial year in which the bonds are issued, unless the Company or the Group company issuing the bond exercises an option to grant no-par value shares in the Company in whole or in part instead of payment of the cash amount due and unless in each case cash settlement is granted or treasury shares or shares of another listed company are used for servicing. The new shares shall participate in the profits from the beginning of the financial year in which they are created through the exercise of option or conversion rights or through the fulfilment of option

exercise or conversion obligations.

The General Partner is authorised, with the consent of the Supervisory Board, to determine the further details of the implementation of the conditional capital increase.

The Supervisory Board is authorised to amend the wording of the Articles of Association in accordance with the respective issue of subscription shares and to make all other related amendments to the Articles of Association that only affect the wording. The same shall apply in the event of non-utilisation of the authorisation to issue bonds after the expiry of the authorisation period and in the event of non-utilisation of the conditional capital 2021 after the expiry of the periods for the exercise of option or conversion rights or for the fulfilment of option exercise or conversion obligations.

§ 7 Shares

- (1) The shares will be non-par value bearer shares.
- (2) The Company is entitled to issue share certificates made out to the bearer which embody multiple shares (global share certificates). The shareholders' right to have their shares embodied in certificates is excluded, unless certificates are required under the rules applicable at a stock exchange.
- (3) The General Partner shall determine the form of share certificates and of dividend coupons and renewal coupons.
- (4) If, in case of a capital increase, the resolution on the increase of capital does not determine whether the shares issued are bearer or registered, they shall be bearer shares.

The same shall apply if it becomes apparent that these Articles of association contain a gap. The invalid or unenforceable provision shall be replaced, or the gap filled, by an appropriate provision that, to the extent legally permissible, comes closest to the provision that the partners would have agreed to if they had been aware of the invalidity, unenforceability, or incompleteness of the Articles of association. If the invalidity of a provision depends on a performance indicator set out in the Articles of association (period or date), a performance indicator (period or date) that is legally permissible and comes closest to the intention of the partners shall apply.
