

March 2022

Covid-19 – Technical Training Courses at Dräger Canada

- Dräger Canada regularly reviews company policies regarding Covid 19. We adhere to the provincial guidelines and may require additional measures (e.g. wearing of masks in Training Room and Common Areas).
- Information regarding current Covid 19 restrictions and infection prevention measures such as mask-wearing and room capacities will be posted in the Dräger Canada office.
- Prior to arrival at the Training Course, please assess yourself for any symptoms that may be Covid-related. If you have an elevated temperature or are feeling symptomatic, please stay home. If someone in your home is sick with Covid- related symptoms, please stay at home as well.
