

Dräger C-C550 Communication Unit

This microphone/loudspeaker unit connects standard radios to the FPS®-COM 5000 and 7000 communication units and can also be used independently. For ease of use, there are two large push-to-talk buttons and a switch to transfer incoming signals to the speaker.

Benefits

Integrated microphone and speaker

The integrated microphone and the integrated speaker enable the use of the C-C550 without the upper unit.

Sturdy connection socket

As a sturdy and robust quick-connect socket, the C-C550 can be combined with any of the upper units allowing connection to different types of radio devices.

Robust and water-repellant

The C-C550 has been designed to be particularly sturdy and robust for many different applications as well as being watertight, complying with IP67 / MIL-STD-810G requirements.

ATEX approved

Should the system need to be used in environments where there is a potential explosion hazard, the C-C550 is designed in such a way that it meets ATEX requirements and has APEX approval.

Two large Push-To-Talk buttons

The two large push-to-talk buttons enable secure voice transmission whether the C-C550 is operated via the equipment or worn under protective clothing.

System Components

D-01400-2015

Dräger FPS®-COM 5000

Developed for use with the FPS 7000 full face mask, the FPS-COM 5000 is a fully integrated communication system for voice amplification that offers clear speech transmission to the surrounding environment, regardless how extreme the conditions.

D-1306-2015

Dräger FPS®-COM 7000*

The FPS-COM 7000 allows for hands-free communication between team members and enables communication with external radio units with the push of a button. COMING SOON!

* Pending NFPA approval

Dräger MS-COM

The Dräger MS-COM, alternatively with swan neck microphone or with microphone positioned under the cap, can be combined with the C-C550 via stereo jack and adapted to radio units.

Related Products

Dräger C-C500

The Dräger Com-Control 500 is a microphone/loudspeaker unit which can also be used with an upper unit (receiver/transmitter unit). As a communication solution it offers various optional functions for different applications including potentially explosive environments.
