The Resuscitaire® is the ideal device to have during labour and delivery procedures. It combines an effective warming therapy platform along with the components you need for clinical emergency and resuscitation.
Benefits

**Resuscitation right where you need it**

The blender, suction, flowmeter, and positive pressure are all mounted on the bed and accessible at your fingertips.

**AutoBreath™**

The T-Piece resuscitation is the new standard for neonatal resuscitation. The Autobreath option allows you to perform this resuscitation hands free. You only have to set the breath per minute, FIO₂, PEEP, and airway pressure relief. All these parameters are adjustable based on the clinical needs of the infant and situation.

**Silica Quartz Heater**

The Silica Quartz technology, a fast heating element, provides complete and EVEN heating. A parabolic reflector helps distribute the heat evenly over the entire mattress area.

**Alarm Free Pre Warm Mode**

Pre warm mode allows caregivers to focus on the mother and baby without having to divert attention to silence alarms.
## Technical Data

### DRÄGER RESUSCITAIRE® WARMER

### Examination light

| Illumination                                     | >0.11 lumens/cm (100 ft. Candles) |
| Quartz bulb type                                 | 50 W (1,076 lux)                   |

### Controller heating alarms

| Check patient                                     | 15 minutes in Manual Mode |
| Baby temperature                                 | +/- 1° C from Set Point     |
| High temperature                                 | Skin Temp. 39.0° C +/- 0.2° C |
| Probe                                            | Short or open circuit / No probe |
| System fail                                      | Indicates System Fail       |
| Power fail                                       | AC Power Interruption       |

### Alarm silence/reset intervals

| Check patient                                     | Resets clock for 15 minutes manual mode |
| Baby temperature                                 | 10 minutes                           |
| High temperature                                 | 2 minutes                             |
| Procedural silence                               | Presilences baby temp alarm for 5 minutes |

### Set temperature/heater output

| Set temp range                                    | 34-38° C (>37.0° override) |
| Heater output                                    | 0-100%, 10% increments       |
| Skin temp display                                | 18-43° C                      |
| Accuracy                                         | +/- 0.2° C (31° C to 37° C)   |

### Resuscitation module

| Wall supply pressure                             | 40-75 psi (275-517 kPa) |
| Cylinder pressure                                | 2,900 psi max (19,994 kPa) |

### Patient gas supply

| Flow control range                                | 0-15 LPM                       |
| Airway pressure limit                             | 0-50 cm H₂O (0-4.9 kPa)        |
| Internal preset limit                             | 60 cm H₂O (5.9 kPa)            |
### Technical Data

#### Auxiliary flow circuit
- **Auxiliary flow range**: 0-15 LPM
- **Fixed internal**: 160 cm H₂O (15.7 kPa)

#### Suction circuit
- **Adjustable**: 0-150 mmHg (0-20 kPa)
- **Disposable collection container**: 50 or 800 ml

#### Autobreath infant resuscitator
- **Adjustable breath rate range**: 18-60 BPM (+/-10% of setting)
- **I:E ratio**: Fixed at 1:2 Nominal
- **Pressure (PEEP)**: 0-18 H₂O (0-1.77 kPa)
- **Gas bleed**: 5 LPM Max
- **Precision blender (optional)**: 21-100% O₂, +/-3% O₂

#### Alerts
- **Manual mode**: System alerts every 30 seconds > 10 minutes, for 15 minutes
- **Apgar timer**: Alerts at 1, 5 and 10 minutes
- **Timer**: Visual timer up to 1 hour

#### Instrument tray
- **Length**: 13.0 in (33.0 cm)
- **Width**: 9.0 in (22.8 cm)
- **Capacity**: 5 lbs (2.2 kg)

#### X-ray cassette tray
- **Pocket width**: 14.5 in (36.8 cm)
- **Pocket length**: 11.0 in (27.9 cm)
- **Thickness**: 0.75 in (1.9 cm)

#### IV pole
- **Maximum load**: 5 lbs (2.2 kg)

#### Monitor shelf
- **Length**: 12.0 in (31.75 cm)
- **Width**: 14.0 in (40.64 cm)
- **Maximum load**: 10 lbs (4.5 kg)
