

## SediStar® - Anesthesia face masks Consumables and Accessories

The disposable anesthesia face mask SediStar features a soft and anatomically shaped lip as the sealing interface to the patient's face. The mask is BPA and PVC free.

## Benefits

---

### **SediStar**

The Dräger mask SediStar is for single patient use in anesthesia. The special ergonomic design supports a perfect grip for the physician. And the transparent mask body allows for continuous observation of the patient's condition.

It is BPA-free and contains no PVC.

---

### **Optimal fit**

Due to the ergonomic design and sealing lip the mask offers an optimized fit for different facial anatomies.

---

### **Color-coding**

Every mask size is color coded by a different label, which makes it easy to identify the correct mask size right of the shelf.

---

### **Additional mask accessories**

Easy application is supported through additional mask accessories: hook ring and headgears for fixation. Two different headgears in small and large designs offer patients and physicians a soft and elastic support and holding position.
